Institution: University of Montenegro, Faculty of Civil Engineering in Podgorica

**Mladen Gogic**, MSc, senior Associate at the Faculty of Civil Engineering in Podgorica. Dipl. Ing. in civil engineering (University of Montenegro, 2005), MSc in civil engineering (University of Montenegro, 2008). His research interests are primarily in the domain of Project management, preparation of tender documentation, tender evaluation, construction expertise, project supervision and commissioning.

He was a member of the Expert team of more than fifty Commissions for Technical control of the project documentation and Commissions for technical review of executed works in objects and more than twenty Estimations of the market values and reports about the present state of the building structures.

His scientific and professional experience comprises numerous engagements and positions:

- Executive director of NGO "Građevinarstvo – nauka i praksa – GNP";
- Member and founder of NGO "Association of assistants and students of postgraduate and doctoral students of the University of Montenegro";
- Member of the Engineering Chamber of Montenegro;
- Vice President of the Assembly Civil Engineers Section of the Engineering Chamber of Montenegro from July 2013 until now;
- Member of the Assembly of the Engineering Chamber of Montenegro from January 2014 until now;
- Member of the Academic Council of the Faculty of Civil Engineering in Podgorica from July 2011 until now;
- Secretary of the Department of building organization and management in Civil Engineering in Podgorica from January 2012 until now;
- Member of the Managing Board of the University of Montenegro from November 2011 until July 2014;
- Member of the Senate of the University of Montenegro from December 2014 until April 2016;
- Member of the Management Committee of the COST Action TU1402 on Quantifying the Value of Structural Health Monitoring (SHM) from 2014 to 2019.
