

Name: **Nataša Kopitović Vuković**

E-mail: nataly@ucg.ac.me

Institution: **University of Montenegro, Faculty of Civil Engineering**

Nataša Kopitović Vuković, PhD, is an assistant lecturer at the University of Montenegro (Faculty of Civil Engineering). Subjects taught include building materials, the technology of concrete and examination of materials and construction methods, as well as building physics and energy efficiency of buildings. Her interest is related to the application of new materials in construction. She was a member of the team making Eurocodes. She participated in the university's teaching staff exchange program. Currently, Nataša Kopitović Vuković is a member of the Montenegro Engineering Chamber and a team member of the Group for evaluation and supervision of construction products of the Institute of Civil Engineering Certification Body (IG CERT). She is also an active member of the Institute for Standardization (ISME) Technical Committee and the author of many scientific papers presented at domestic conferences and abroad.
